RE: McDonnell Douglas Corporation, St. Louis Facility,
MOD000818963 - Closure Certification Acceptance and Release
from Financial Assurance for Building 28 Waste Tank and Waste
Storage Area 3

McDonnell Douglas Electronic Systems Company, St. Charles
Facility, MOD075888487 - Closure Certification Acceptance and
Release from Financial Assurance for Tract V Incinerator

Dear Mr. Palmer:

In accordance with 40 CFR Part 264 incorporated in 10 CSR 25-7.264, the Missouri Hazardous Waste Management Regulations, the Director of the Missouri Department of Natural Resources (MDNR) hereby accepts the closure certifications for the following units at the above referenced hazardous waste facilities:

1. Closure certification dated April 29, 1994, for Building 28 Waste Tank and for Waste Storage Area 3 at McDonnell Douglas Corporation (MDC) Tract I facility, St. Louis, EPA identification number MOD000818963. This certification was signed by Edward L. Tharp, P.E., an independent registered professional engineer. The tank and storage area were inspected by the St. Louis Regional Office on April 25, 1995, and found to be satisfactory.

MDC is released from financial assurance for closure for Building 28 Waste Tank and for Waste Storage Area 3. MDC is not released from financial assurance for closure and liability for the following units: Building 14; storage tanks H-12 - H-16, storage tank H-19, storage tank H-20; underground waste oil and jet fuel storage tanks; and container storage areas I and II. According

R00013203

RCRA Records Center

Mr. J. F. Palmer

to the closure cost estimate dated March 1995, financial assurance for the St. Louis Tract I facility is \$343,389. Financial assurance for closure at this facility can be reduced to \$296,038, a reduction of \$47,351.

2. Closure certification dated July 26, 1995, for the Tract V hazardous waste incinerator and closure certification dated September 11, 1995, for the neutralization tank at McDonnell Douglas Electronic Systems Company, St. Charles facility, EPA identification number MOD075888487. Certification for the incinerator was signed by Joseph E. Dieterman, P.E., an independent registered professional engineer. A separate certification for closure of the neutralization tank at the incinerator facility was signed by D.W. Ryckman, P.E. The incinerator operation area was inspected by the St. Louis Regional Office on August 15, 1995. According to that inspection, all equipment involved in the permitted incineration operation had been removed.

MDC is released from financial assurance for closure and liability for the Track V hazardous waste incinerator facility.

If you have any questions regarding this matter, please contact Ms. Joy Reven of the MDNR Hazardous Waste Program at (314) 751-3176.

Very truly yours,

DEPARTMENT OF NATURAL RESOURCES
